

RMPA Inaugural Symposium
 Steamroller relief templates
 Exquisite corpse Bestiary
 Individual plate size: 16" x 24"

There are 27 plates total. Artists in your group sign up for consecutive plates, starting with the (a) plate of whichever animal(s) is chosen. It would be better to have 1 complete animal than lots of random plates from all 4 animals. These are beings inspired by reality. Just make sure that the outline of the animal will match up (do the best you can) when the plates are placed together. Otherwise, carve to your heart's content, have fun and show off a little bit!

Use this document as a sign-up sheet for artists. The number/letter identification should be written visibly on the back of each plate. The templates are to scale. The ones you are receiving via email are 8.5"x 11" PDFs. If you would prefer an illustrator file with a vector image, please contact us.

Please direct any questions, requests, or comments to the Steamroller Committee Chair:
